PROFESSIONAL SUMMARY

Results-driven Software Developer with 7+ years of experience building scalable web applications and backend systems. Strong expertise in **ASP.NET, Blazor, C#, and database design**, with hands-on experience in real-time systems, API development, and modern application architecture (Clean Architecture). Also skilled in Generative AI and AI video production, including AI UGC, 3D Pixar-style animation, etc.

Proven ability to design, develop, and maintain high-performance applications, including trading platforms, school management systems, and real-time data services and combine technical and creative skills to build efficient applications and engaging digital content. . Passionate about solving complex problems and building efficient, user-focused software.

TECHNICAL SKILLS

Languages & Frameworks

- C#, JavaScript, HTML5, CSS3
- ASP.NET (Web Forms & Core)
- Blazor Server & Blazor WebAssembly
- .NET (up to .NET 9)

Frontend & UI

- Bootstrap / BlazorBootstrap
- Responsive UI Design
- Component-based UI (Blazor)

Backend & Architecture

- REST API Development
- Clean Architecture

- Dependency Injection
- Background Services (Hosted Services)
- SignalR (real-time communication)

Database & Storage

- Microsoft SQL Server (MSSQL)
- Entity Framework Core
- Database Design & Optimization

AI Video & Creative AI

- Generative AI for Creative Content & Visual Production
- AI Video Generation, Image-to-Video & Cinematic Storytelling
- 3D Pixar-Style Character & Animation Creation
- AI-Powered Advertising & Promotional Videos
- AI UGC & Social Media Video Creation

Other Skills

- Authentication & Authorization (JWT, Identity)
- API Security & Key Protection
- PWA (Progressive Web Apps)
- Real-time data systems (crypto/market tracking)
- Debugging, Testing & Performance Optimization

PROFESSIONAL EXPERIENCE

Software Developer (Freelance / Personal Projects)
2017 – Present

- Designed and developed multiple web applications using **ASP.NET and Blazor**

- Built a **real-time cryptocurrency price tracking system** using background services and SignalR
- Developed a **school management system** with features like:
    - Student performance reports
    - Attendance tracking
    - Result management with automatic grading
- Implemented **secure APIs** with authentication and protection against unauthorized access
- Built **file management systems** with sharing, downloading, and metadata tracking
- Designed scalable architectures using **Clean Architecture principles**
- Diagnosed and resolved complex software issues through testing and debugging

IT Intern – White Dove Web World
2020

- Worked on **database management systems**
- Assisted in **web development projects**
- Gained hands-on experience with real-world development workflows

---

EDUCATION

B.Sc. Computer Science
Delta State University, Abraka — *2022*

CORE COMPETENCIES

- Problem Solving & Logical Thinking
- Software Design & System Architecture
- Attention to Detail
- Independent Work & Team Collaboration
- Time Management & Task Execution

PERSONAL ATTRIBUTES

- Strong analytical mindset
- Self-motivated and disciplined
- Able to work under pressure
- Effective communication skills
- Continuous learner and tech enthusiast

HOBBIES

Programming, Traveling, Swimming, Music

REFEREE

Dr. Okorodudu
Lecturer, Delta State University, Abraka
